

IND235D

235Litre Ultrasonic Cleaner

The **IND235D** is an Industrial grade ultrasonic cleaner for cleaning and processing larger components. Combining high performance transducers and a robust stainless steel tank, this 235Litre tank delivers excellent reliable performance across a diverse mix of applications.

The **IND235D** has been designed to be incorporated into manufacturing and routine maintenance programmes where the highest standards are essential.

It has an internal tank length of 1300mm, allowing thorough cleaning of elongated components such as oil filters, valves, tubes and many more.

The easily operated digital control allows the cycle time to be programmed up to 59 minutes, and the temperature up to 80°C.

Standard Features:

- Digital control for time and temperature
- Stainless steel lid and basket
- Fluid level sensor
- 3 year warranty
- Basket shelf

Optional accessories:

- Irrigation system
